

Presentation of the Hotel Castle Lubliniec.

Extraordinary castle built at the end of the 13th century by the will of the princes of Opole changed over the centuries and passed from hand to hand. The events written on the pages of its extraordinary history could serve as a scenario for many interesting movies. Today, after extensive renovation, the castle once again delights his guests as in the days of former glory, with 45 comfortably furnished rooms in 4 stars standard. All rooms combine elements of history and modern design and the view from the window spreads over the historic castle park.
